

Deeply **uniting** AI, Twilio and Odoo to unlock **emergent**
possibilities

Different faces of Twilio

Twilidoo NOW

A telephony solution for every Odoo instance!

Twilidoo uses Voice API to manage SIP users, extensions, call queues, call flows, recordings, and more—all directly **within the Odoo interface** (no need for a separate PBX or 3rd party tools)

Twilidoo: All-in-One Telephony Solution
for Odoo users

Twilidoo NOW

An AI query interface for Odoo

Twilidoo implements an universal user interface to any Odoo app and records.

It's not only AI call transcripts analytics tool, but uses all Odoo as a data source.

Twilidoo: AI Query tool
for Odoo users

Twilidoo soon

An Omni Channel solution for Odoo

**Twilidoo brings all Twilio API
(voice, video, messaging, chat, notify)
to Odoo world.**

Twilidoo: The ultimate communication gateway
for Odoo users

Twilidoo soon

The Ultimate Contact Center Solution

Odoo has a range of modules and apps that can be combined to build a comprehensive contact center solution

CRM, Helpdesk, Live Chat, Knowledgebase, Email Marketing, Document Management, HR, Timesheets, Invoicing, etc.

Twilidoo: Contact Center
for Odoo users

Twilidoo soon **AI-Powered Sales Bot**

Merging Twilio's AI with Odoo's Business Data

Personalized interactions by accessing customer history, orders, tickets, projects, preferences, etc.

Responds to customer queries about sales, payments, deliveries, and more.

Twilidoo: AI Sales Manager
for your customers

A fusion of DNA, breathing life into Odoo apps with Twilio communication capabilities!
